<i>Period</i>	04/11/2013
<i>Company</i>	Fiat Group Automobiles Torino, Italy
<i>Department</i>	R&D Interiors Cockpit
<i>Role</i>	Engineering specialist
<i>Main activity</i>	Focus on cross car beam efficient design in order to meet the specified requirements in the right timing. Coordination of the work tasks of a team of 3 designers, focus on the respect of timing and on the quality of the delivered work.

EDUCATION

UNIVERSITY

<i>Period</i>	13/05/2013 – 31/10/2013
<i>Company</i>	Fiat Group Automobiles Torino, Italy
<i>Department</i>	R&D Interiors Cockpit
<i>Role</i>	Internship
<i>Main activity</i>	Study of an efficient cross car beam concept in order to minimize its weight considering the performances requested

Period 27/10/2011 - 16/10/2013

Course Master degree in
Automotive Engineering (2 years)

Institute Polytechnic of Turin

Grade 110/110 with honors

Thesis Application study of a new high efficiency steel cross car beam concept

Period 09/09/2008 - 19/10/2011

Course Bachelor degree in Automotive
Engineering (3 years)

Institute Polytechnic of Turin

Grade 110/110 with honors

Thesis The determination of S-N curves: Methods and models

HIGH SCHOOL

Year 2008

Diploma Scientific diploma

Institute Liceo Darwin, Rivoli

Grade 100/100

MOBILITY

Period 15/08/2010 - 15/12/2010

Program SECAC (Polytechnic of Turin)

Institute University of Arkansas
Fayetteville, USA

COURSES AND SEMINARS

Period 27/02/2013 – 01/03/2013

Course Workshop: “Leadership & Management”

Organizers Polytechnic of Turin, Comau
